

The General Election, to be held on November 4, promises to be one of great interest at the National, State, District, and County levels. In anticipation of this interest, the League of Women Voters of La Plata County will assist voters in registering to vote, applying for a permanent mail-in ballot, or making changes to their current registration.

The League is a non-partisan organization, endorsing neither candidates nor political parties.

The League will be at the Durango Farmers' Market this summer on the second and fourth Saturdays of each month. We invite you to stop by to register, talk, ask questions, or to say "Hello." We will be helping voters at other locations over the next few months. These events will be listed on the League website at www.lwvlaplata.org.

If you wish to have League members come to your meeting or facility and assist in registration, please leave an email at mjschili@bresnan.net. We will make every effort to help you in this process.
